Dear Mike,

We at Thein Well Company are pleased to provide you with an estimate to pull and inspect your wells and pumps.

You can expect manpower and equipment to be in the \$4,000 range for each well. If you choose to have them both inspected at the same time you can expect a savings of \$650.00 (est. \$7,350 to pull both). Not included in this estimate are any replacement items that may be needed. Once the pumps have been pulled, we will notify you of our findings on will not replace any items until after approval from the city.

If you have any questions, or if there is anything else that I can help with, please feel free to contact me at (800)450-8000, or via email zack@theinwell.com at your convenience.

Sincerely,

Zack Thein
