

This is the text I received from Keith Kuehne:

Hey

Here's what's happening on my mobile home. I'm putting windows in it that got broken out by punk ass neighbors kids after I move to other end of my property . Its definitely liveable always was. Won't be seen by anyone there. If I get any more complaints I will talking to my attorney . I got lots of issues with city ,starting with city road on my property in Ball diamond, charging me city sewer and water which I don't have ,never will have. 20 year loan all illegal. So pass this on I'm tired of getting singled out in town. I see all kinds of vehicles, building's falling down. Tell them to go look. Have a good day 😊
