

Please review Loren Menz's request for a new shed at 310 Glenn ST. He is questioning our last month's decision requiring him to have a 20' setback from Glenn ST. Menz claims are that if he moves the shed back another 9' (he was originally at 11'), it puts him too far into the hillside, and he has too much dirt to excavate. His house only faces Glenn ST, but he claims that is not the front of his house. He is not interested in a variance.
