Building Update

- A) Damage from recent event: at a recent event, the security lock around the thermostat was damaged. Lammers was directed to deduct the cost of replacing the lock from the security deposit.
- B) Temperature: Committee recommended to Lammers to keep the Event Center at 70° and to adjust when necessary for events such as zoomba or wedding receptions.
- C) Floors: Flooring contractors have been very busy and difficult to contact for a quote. Lammers was approached by Custom Concrete Coatings. The engineer has reviewed the flooring in the bar area and has noted that the foundation under the bar has settled. Engineer said that it would be acceptable to simply level and overlay a new floor over the existing flooring. Lammers was asked to contact Custom Concrete Coatings for a quote by area and by various levels of finishing complexity. The Committee welcomes an in-person presentation from the contractor
- D) League of MN Cities Inspection: numerous issues were noted and Lammers will be working to remediate them.
- E) Doors between Main Area and Kitchen: Lammers gave an update that the Blandin Foundation has a grant opportunity that if the City partners with the Vergas Community Club and provides a match, we would receive money to replace the doors and work on the flooring.
- F) Coffee Maker: The replacement basket and cover are received and works well. There is still a leaking issue.
- G) Feedback from recent event: Event ran out of toilet paper, Lammers to check that the area behind the stage still contains extra supplies. A privacy issue with the window in the door to the rear bathroom was noted but City Maintenance staff have corrected.
