

CONFIRMATION OF REQUEST FOR GIS SERVICES

CLIENT: City of Vergas

SERVICE REQUESTED BY: Julie Lammers DATE: July 11, 2022

PROJECT: 2022 Vergas GIS Implementation Services

DESCRIPTION OF WORK INVOLVED: Widseth will assist Vergas in the procurement and setup of their own cloud-based Geographic Information System (GIS) site (via ESRI's ArcGIS On-Line (AGOL) service). Widseth will compile existing GIS datasets from the City and other sources (parcels, roadways, zoning, etc) and upload to the site. The primary mapping application will include 'Print' and 'Proximity' tools and available datasets for users. Widseth will create a virtual map and dataset for field collection. Once the site is completed, Widseth will conduct an on-site training at the City office with staff. The amount of yearly, licensed 'Users' is determined by the City and can be added-to/altered at any time through your contract with ESRI. One 'Creator' license is required, and additional licenses should be based on needs.

ESTIMATED PROJECT COSTS:

GIS Enhancements (Widseth fees)

AGOL license procurement, site setup & on-site training	\$2,500
Existing data acquisition, conversion, and development	\$2,100
Estimated GIS Implementation Cost	\$4,600

ArcGIS Online Subscriptions (annual license fees via Esri)

Creator license (site administrator - required)	\$500
Field Worker license (edit, collect)	\$350/each
Viewer license (view maps/data only)	\$100/each

Additional GIS services

Additional training	hourly rates
GIS database edits/creation/analysis	hourly rates
Paper and pdf map creation/plotting	hourly rates
