

Engineering Update – April 2026

Blaine Green, PE, VP

Spring is here!

Ongoing Items:

- Parking lot:
 - Punchlist items (concrete walk) to be completed in spring
 - Completed Certificate of Survey for Bruhn Property
 - Project closeout to follow
- Keilley Shores development
 - Developer's engineer confirmed that the pond is undersized, and will require additional storage to meet requirements. I will continue to work with all parties to help get the project finished.
- Lead Service Lines
 - Staff is sending me the last handful of services, and I've been entering them into the City GIS website.
- LRIP Grant
 - Unfortunately, Vergas was not awarded the grant. The City could pursue basic upgrades to the street, and early cost estimate would put the street costs around \$105,000 to improve safety from Glenn Street to Hwy 17
- Gravel Pit permitting
 - Flight scheduled for April
 - Report to follow in early May

Upcoming Items: NA

On the radar:

- Project Priority List & Intended Use Plans (utilities)
 - Discuss at upcoming utility committee meeting
 - Identify system needs with staff
 - Develop a preliminary engineering report (PER)
- Street projects
 - Work with staff to identify needs

If you have any questions, you can give me a call at 320-335-5057, or email me at blaine.green@widseth.com

Thank you!
