I believe this lot falls under the Vergas MN Shoreland Management Ordinance updated 9/10/2024 - see snipping below that has reference to allowances for RCU's and definition is in snippings below. The RCU is not in use at this time. As for the bunk of lumber, I am submitting application with Ottertail County for a couple construction permits as I believe this is their review jurisdiction based on the map I found on your website and snipping of my lots within their permit review area below. If I need to move the lumber prior to permit approval, let me know and I can have one of my sons move it to the east side of the house until construction begins. I intend to comply with City Ordinances and will make corrections as needed, but just wanting your review of this additional information to determine if I am mistaken and what ordinances I should be operating under for my properties in Vergas, especially for future development across the street from my 840 E Scharf residence. I can stop by your office tomorrow if easier to discuss as well - let me know and I look forward to your follow-up.			92.16 E & 151.28
