

Utilities Superintendent Report

Vergas City Council — September 2026

Submitted by: Michael Dufrane, Utilities Superintendent

Water Department

- Routine water samples were completed for the reporting period.
- The fence around the Vergas water treatment plant is still under construction.

Street Department

- No specific street department updates were reported for September.

Parks Department

- Minnesota Boardwalks completed warranty repair work in the park.

Wastewater Department

- The second phase of jetting was completed.
- The second phase of video surveillance of the wastewater collection system was completed.
- Two pumps were replaced in the main lift station.
- Payment for one of the pumps will be deferred until January 2027.
